THE MUTUAL LIFE INSURANCE COPANY of New-York, No. 44 Wall street—This Company, since its organization on the 1st February, 1843, (two years) has issued 1200 policies. The total amount received for premiums and interest on investments, $121,687; yielding a net capital of $97,273, after paying all its losses and expenses. This accumulated capital is rapidly increasing by the 2d and 3d years' premiums now becoming due, and by a yearly extended and growing business. The evident success and prosperity of this institution has placed it on a strong position. Its capital and resources are now so ample as to inspire confidence in its ability, and insure safety to its members.

The company is organized upon the most improved principles of Mutual Life Insurance, and offers very great advantages to whole Life Policies, or insurances for short periods, if continued till death; without incurring any personal responsibilities. At the expiration of every five years from the date of the first policy, (which will make the first division of profits) in the 1st of February, 1848) the whole of the profits will be divided among the insured in proportion to the amount of premiums paid by them, and will remain at their credit as an accumulating fund, payable at the decease of the life insured.

The progress of this institution thus far gives strong grounds for anticipating large dividends to its members at the stated periodical settlement, and equal to those of the most distinguished and successful Mutual Companies in Great Britain, where it is well known immense profits have been made.

The importance and utility of Life Insurance is becoming a matter of deep interest with all classes of the community and is now occupying much of public attention, and beginning to make favorable impressions as to the great benefits to be derived from it; as the published monthly statement of lives insured by the company conclusively show.

WHIG NOMINATION.

FOR DELEGATE TO CONGRESS

JAMES COLLINS

OF IOWA COUNTY.

THE NEBRASKA HOUSE.

Corner of East Water and Huron sts., Milwaukie.

☞ The Milwaukie public are generally aware that within the last three months, a large and magnificent Hotel has been in progress of erection, near the theatre of the great fire, on the corner of East Water and Huron streets, by our enterprising fellow citizen, Mr JAMES H. ROGERS. This Hotel, which, we believe, it has been determined to call the "NEBRASKA HOUSE," in compliment to the embryo new Territory west of the Mississippi, is constructed with brick, made at the city brick yards—(an article, by the way, which, for richness of color, durability and neatness of manufacture, elicits the admiration of all visitors,) and for style and architectural beauty, will vie with any other building in the Western country. Is is three stories and a half high, with a dome or observatory 20 feet square. The building extends on East Water street 80 feet, and on Huron 100, and has a basement under the whole length and breadth.

Beginning with the basement, there will be on the corner, a Barber Shop, Dressing and Bathing room; on East Water street, three cellars attached to stores, and on Huron street, two store cellars and a cook room.

On the first floor, in the corner, a Bar-room; across the main hall, on Huron street, a Reading room; on East Water street, three stores, 20 feet front by 50 deep; on Huron street, two stores, 20 by 40 feet.

On the second floor, a most magnificent Dining room, on Huron street, 38 by 54 feet; eight large parlors; four parlors with lodging rooms and clothes presses attached; an Assembly room, on East Water street, 40 by 70 feet.

On the third floor are 54 lodging rooms, of large size, lighted by attic windows.

Spacious halls, 10 feet wide, traverse the centre of this Hotel each way, from the first to the third story, and through which, commencing on Huron street, run three flight of stairs from the ground floor to the attic.

The building is constructed on the ground in the form of a Gothic letter L, in rear of which is a yard 80 feet square, which is to be graded off and covered with green grass. In the centre of this lot, it is proposed to erect a stone fountain, which is to be supplied with pure water from one of the eminences in the city. The House will also be supplied with water from this fountain, which can be brought through pipes directly into the first and second stories of the building.

The cooking department will be entirely separated from the main building, which in all its exterior parts is constructed so as to be proof against fire.

Large stables and out houses are attached to this establishment, for the accommodation of the house.

The building, as you approach it from below on East Water street, and obtain a perspective view, has a most magnificent appearance, towering up from the ground, and looking more like some public temple than a hotel. From the Observatory on the roof, a grand, panoramic view can be had of the city, bay, river, lake and surrounding country for miles.

It needs no farther guarantee to establish that the Nebraska House will be conducted in a style most satisfactory to the travelling public, than the assurance that Messrs. TAFT & SPURR, formerly of the Cottage Inn, are to be the lessees. The high reputation they sustain as public house keepers, is worth to them a fortune of itself. Being so deservedly popular, and such general favorites, they cannot but receive a most beneficent public patronage.

The building is to be entirely completed by the first of October. Beside being a great acquisition to the city, as a magnificent edifice, it will also be of great utility as a public house, and cannot fail to be a great favorite with the travelling community.

THE BURNT DISTRICT.—The enterprise and energy of the people of New York are shown in the efforts they are already making to rebuild the burnt district. An army of workmen, the Sun says, are already in possession of that quarter, preparing for building new and substantial houses. In their speed to get agoing again, we trust they will not fail to build substantial buildings in reality, and not the shells which are usually put up and called houses. The advantage of building a house in the proper manner has been s own in the two great fires which have happened in the business quarter of that city. The fire was each time checked by the same building and prevented from spreading any further. That building was a store, whose walls were twelve inches thick, and the sleepers resting upon projections in the wall, instead of extending through to the next building. A hint should be taken from this by those who have been so unfortunate as to be burnt out, and they should end ever to protect themselves from another catastrophe, by building substantial houses.

TEXAS LANDS.—In New York, on the 15th, a sale of lands in Texas was effected at the rate of *fifty acres for three cents*. They may be dear at that. In the bubble period of '36-7, lands were sold about the lakes which couldn't be touched with a twenty foot pole.

☞ There is said to be lawless and riotous proceedings in Scott county, Missouri. Parties are arrayed against each other, and violence and bloodshed are anticipated.

The men who were lynched there several weeks ago, on suspicion of having burned houses, stacks, &c., having organized with a reinforcement, both parties a meeting for a conflict.

☞ We learn from the Boston Atlas that the Whig Convention of Middlesex county, Mass., the Free Soil Convention of the same county, and the Democratic Convention of the same county, all met on the same day, and all nominated Thos. Hopkinson for Governor. Mr. Hopkinson must be a practical disciple of Mr. Greeley's favored religion—"He that provideth not for his own household, is worse than a heathen."

☞ The Albany Argus says:—We learn that Messrs. Butterfield, Burton & Co., of Utica, who have taken the contract for the purpose, design to put on the line of steamboats, between Albany and Utica, in about three months.

☞ The steamboat Sirius of Great Britain recently made a trip from London to the Isle of Wight and thence to Plymouth. After staying there two or three days, she was to go to Dublin, thence to Liverpool, and so sail for this country on the 26th of July. An interesting experiment was made with her life-boats. One of them was lowered into the water and every effort made to sink her. It was found that when full of water, she would sustain from 50 to 60 persons without sinking. The Great Britain is provided with four such boats, with one very large one on deck, capable of carrying 140 persons. They are all made of iron.

TEMPERANCE TOAST IN YANKEELAND.—The following toast was given at a temperance dinner:—"The revolutionary army and the cold water army; the one drove the *red coats* from the land, the other the *red noses*."

☞ Among all the speculations, it has been suggested that some of the packages in the exploded store contained French gunpowder instead of merchandize. This is not improbable. We have heard of the law against storing gunpowder being evaded elsewhere in a similar way. Indeed, we have been told that it is not an uncommon thing to send gunpowder over our railroads, packed as dry goods, with a slight covering of some cheap fabric. The person who in this way endangers the lives of his fellow beings, deserves the severest punishment of the law.

ELECTIONS AT HAND.—Kentucky elects her Legislature and one or two members of Congress, the first Monday in August; Tennessee her Governor, Congressmen and Legislature, the first Thursday in August; Indiana, Illinois and Missouri, the first Monday.

Latest from Texas.

Annexation ratified—Death of Vice President K. Anderson—Incursion and depredations of the Indians—General News.

By the arrival of the brig Hope, Howe, from Galveston yesterday, we are apprised of the fact that the question of annexation has been finally consummated.

We give our correspondent's letter, which embraces a clear and succinct narration of the proceedings of the Convention up to the latest period at which it was possible to recuive Austin news:

AUSTIN, July 7, 1845.

The Convention assembled on the morning of the 4th, and unanimously elected Gen. Rusk to preside over its deliberations. A committee of fifteen was appointed, who reported by their chairman, Judge Lipscomb, an ordinance assenting, on behalf of the people of Texas, to the terms of Annexation proposed by the United States Government. It was adopted with one dissenting voice—but five members absent. It was engrossed and signed by all the members present. It is not a little singular that the only dissenting voice was Richard Bache, the father-in law of your Secretary of the Treasury and brother-in-law of the Vice President.

After the necessary resolutions were passed for the transmission of the ordinance to the United States, a resolution was offered by Col. Love, and unanimously adopted—"That the members wear crape on their left arm for one month, as a testimony of regret for the decease of Gen Jackson." The Convention then adjourned.

On the 5th we appointed committees on the plan adopted by the Virginia Convention, to report on the various subjects submitted. It called forth some discussion which was creditable to the speakers—it was the skirmish that precedes more heavy firing.

The delegates to the Convention, for intelligence, integrity and worth, would rank high in any country.—There is not, perhaps, much of brilliancy, but a great deal of matter-of-fact sense and sound knowledge; and I predict that we shall form and send you a sound and sensible Constitution, free from the worst features of ultraism.

The terms of Annexation are not, perhaps, such as we had a right to ask; but so anxious are we to free the subject from further agitation in the United States that no conditions whatever will be annexed to the Constitution differing from the resolutions passed by the United States Congress.

A despatch was received from the United States in the morning, and Major Donelson arrived on the evening of the 5th, having been detained at Washington by serious indisposition. These despatches relate to the occupation of our frontier by your troops. They are now on their march—the foot by water to Carpus Christi, on the west bank of the Nueces; the dragoons by land to San Antonio.

The step is taken that will decide Mexico in her policy. Foreign troops will soon be upon the soil she claims. Her choice must be a declaration of war; or, if she is wise, negotiation. She may acquire money by the latter—defeat and disgrace only by the former. To-day a resolution was passed, requesting the President of the United States, in behalf of the people of Texas, to send troops forthwith to our frontier. This resolution is a sanction on the part of the people of Texas, of the movement noted above.

The intrigue of those in power here, which in its commencement was advised by the Ex-President, has been dissipated by the power of the people: The Executive occupies no envied position; I am inclined to think he has been victimized by his *friend* and patron, as well as her Majesty's Minister. True to his faith, however, he forced his Excellency [illegible] for it if sugar, cotton or negroes have any thing to do with the matter.

We are entirely exposed to the attacks of Indians and Mexicans—not a soldier on guard, and but a few fire-arms. So callous have the people of Texas become to danger, that they scarcely ever prepare to repel an attack. On my way here I met a young man, with two young girls, in a buggy, with no protection whatever from attack, almost at the very spot where young Hornsby had been killed two weeks previous by the Indians. They were in high glee, laughing and talking merrily,—I could but think that an hour might consign them to death, or a worse fate!

Hon. K. L. Anderson, Vice President of Texas, died on the 10th inst. at Fanthrope, Montgomery County, of fever. The papers are in morning for the sad event.

☞ The Courier, N. Y., states that it is mentioned that John Jacob Astor, Esq. has offered to purchase one million dollars in bonds and mortgages from some of the Insurance Companies; and that the stocks held by them, being of the strongest description, viz: United States, New York State and City Stocks, having been applied for by some of the leading houses in Wall street.

Two Persons over the Falls.

NIAGRA FALLS, July 29, '45.

Yesterday, two bodies were discovered in the whirlpool (three miles below the Falls) in the embrace of its everlasting whirls How long they have been there, or how long they may remain, is impossible to tell. Who they are, or where they lost their lives is not known, but it is supposed that they were drowned at some point above the Falls, and have passed over and through the rapids, into the whirlpool, and may there remain until they pass out in decomposed fragments.

A DREADFUL STORY.—A correspondent of the Cincinnati Herald relates the following occurrence, but it seems too horrible to be believed—it is charitable to humanity to doubt the truth of so atrocious an act. It is said to have occurred near Oakland cottage, Mississippi:

"A slaveholder, a short time previous to his death, made provisions for the liberation of his slaves. Those who were entrusted with the execution of his designs failing or refusing to carry out his last will and testament concerning the slaves, the latter became restive and impatient to enjoy their long looked for boon. At length, disappointed, expecting to be sold, and incensed at their oppressors, they set fire to the overseer's dwelling, and burnt it to the ground. A little child, which they were unable to rescue, was consumed in the flames. The slaves, eight or nine in number, were taken, and two of them hung on the spot. Two others were taken into an old log house and chained to the floor. The house was then set on fire and they were, by a slow fire *burned to death* in this most shocking manner, while the air was rent with their unavailing shrieks and screams."

WAR DEPARTMENT.—Owing to the great number of permits to enter and make locations on the mineral lands about lake Superior already issued, the Secretary of War has suspended the further issue of them, and notified the applicants of his determination, by addressing to each a letter. [Wash. Union.

Summer in Charleston.—The Mercury of the 26th inst., says:

"We are passing through the hottest July in the memory of man. It is impossible to think, to work, to read—still more to rest.—Exposure to the sun is at the risk of life: We heard of a death yesterday from it, and expect to hear of more. On Monday the thermometer stood at 98 for several hours, and was above 90 at sunset."

A SEASONABLE PARAGRAPH.—We find in a Southern paper a paragraph running in this wise: "It is pleasant in a sultry summer's day, to leave the dusty thoroughfares of trade, and sit down beside some babbling spring, the margin of which is carpeted with green and tender turf, while overhead the tall family of the forest interweave their rustling branches, forming huge gothic arches, while through their interstices a beam of sunshine descends in softened glory."

DIED,

At Beloit, August 1st, JOSEPH B. GRIFFING, of the firm of Higby & Griffing, aged 31 years.

AT a meeting of the citizens of Beloit, held at the Beloit House on Friday evening, Aug. 1, 1845, THOMAS A. POWERS was called to the Chair, and J. HACKETT appointed Secretary.

The object of the meeting having been stated by the Chair, on motion of L. Humphrey, the following preamble and resolutions were unanimously adopted:

Whereas it has pleased Almighty God, in the exercise of his wise Providence, to remove by death, from this "vale of tears," our worthy friend and associate, JOSEPH B. GRIFFING, of the firm of Higby & Griffing; therefore

Resolved, That in his death this place has lost one of its most respectable and enterprising merchants and useful citizens, and the [illegible] church, to which he belonged, one of its most pious and devoted members.

Resolved, That we sincerely sympathize with his afflicted wife and [illegible] in their present and [illegible] bereavement, which they have sustained.

[illegible] these tokens of our highest respect for the deceased, [illegible] will close our respective shops, and [illegible] suspend our [illegible] business, and in a body attend his funeral from his late residence, to-morrow at 10 o'clock, A. M.

Resolved, That the proceedings of this meeting be signed by the Chairman and Secretary, and a copy of them forwarded to the family of the deceased, and also that the same be published in the Beloit Journal.

PROLAPSUS UTERI.

THIS troublesome disease is cured by the use of Hull's Uterо Abdominal Supporter; from the many certificates in its favor we select only the following of Doctor Ashwell—After its successful trial in Guy's hospital, the following certificate was handed to Dr. Hull's London Agent, for public use:—

13 Devonshire Square, London, Mar 17, 1838.

"Having tried Dr. Hull's instrument for the cure of Prolapsus and Procidentia Uteri, I am glad to express a highly favorable opinion of its utility. In a severe case of entire Procidentia, lately under treatment at Guy's Hospital, it was applied with marked success. Its great superiority over the pessary consists in its affording efficient support to the weakened abdominal integuments, and in its *external* application, instead of its introduction into the vagina. I quite think it will accomplish a permanent cure better and more quickly than the pessary. SAMUEL ASHWELL, M. D.
Obstetric Physician, and Lecturer to Guy's, London.

Sir Astley Cooper, after the apparatus had been several months under his inspection, gave the following opinion for publication:—

"This apparatus is beautiful for its simplicity; it is an acquisition to practice. The principle of its operation is quite original and perfect. I shall advise its use, and make use of it in my own practice, in preference to anything I have seen."

The above valuable instrument can be found at the Medical store of the undersigned, who is the agent for the sale of the same in Wisconsin. A. F. CLARKE,
